Transportation Research Part D 4 (1999) 437–439

TRANSPORTATION RESEARCH PART D

www.elsevier.com/locate/trd

LIST OF CONTENTS

Number 1

Alberto Colorni, Eliot Laniado and **Simona Muratori**	1	Decision support systems for environmental impact assessment of transport infrastructures
Kjartan Sælensminde	13	Stated choice valuation of urban traffic air pollution and noise
Mohan M. Venigalla, Arun Chatterjee and **Michael S. Bronzini**	29	A specialized equilibrium assignment algorithm for air quality modeling
Thomas Bue Bjørner	45	Environmental benefits from better freight transport management: freight traffic in a VAR model
M. Khare and **P. Sharma**	65	Performance evaluation of general finite line source model for Delhi traffic conditions
	71	Thanks to referrees

Number 2

G. Ambrosino, P. Sassoli, M. Bielli, P. Carotenuto and **M. Romanazzo**	73	A modeling framework for impact assessment of urban transport systems
Rubhera R. A. M. Mato and **T. S. Mufuruki**	81	Noise pollution associated with the operation of the Dar es Salaam International Airport
Bengt Johansson	91	The economy of alternative fuels when including the cost of air pollution
Peter Romilly	109	Substitution of bus for car travel in urban Britain: an economic evaluation of bus and car exhaust emission and other costs
Yi-Chang Chiu and **Gwo-Hshiung Tzeng**	127	The market acceptance of electric motorcycles in Taiwan experience through a stated preference analysis

Number 3

Xiugang Li, Wei Wang, Fang Li and **Xuejun Deng**	147	GIS based map overlay method for comprehensive assessment of road environmental impact
M. Jani	159	Aviation and externalities: the accomplishments and problems
S. A. Rienstra, P. Rietveld and **E. T. Verhoef**	181	The social support for policy measures in passenger transport. A statistical analysis for the Netherlands
P. Sharma, M. Khare and **S. P. Chakrabarti**	201	Application of extreme value theory for predicting violations of air quality standards for an urban road intersection

Number 4

E. Feitelson and **N. Papay**	217	Sharing rights of way along inter-urban corridors: a spatial temporal and institutional analysis
P. Goyal and **T. V. B. P. S. Rama Krishna**	241	A line source model for Delhi
M. El-Fadel and **E. Bou-Zeid**	251	Transportation GHG emissions in developing countries. The case of Lebanon
M. Lenzen	265	Total requirements of energy and greenhouse gases for Australian transport

Number 5

Md. Masud Karim	291	Traffic pollution inventories and modeling in metropolitan Dhaka, Bangladesh
D.A. Niemeier, K. Lin and **J. Utts**	313	Using observed traffic volumes to improve fine-grained regional emissions estimation
I. Fomunung, S. Washington and **R. Guensler**	333	A statistical model for estimating oxides of nitrogen emissions from light duty motor vehicles
		Notes and Comments
A. Root and **L. Schintler**	353	Women, motorization and the environment

Number 6

W.W. Recker and **A. Parimi**	357	Development of a microscopic activity-based framework for analyzing the potential impacts of transportation control measures on vehicle emissions
H. Jansen and **C. Denis**	379	A welfare cost assessment of various policy measures to reduce pollutant emissions from passenger road vehicles
K. Funk and **A. Rabl**	397	Electric versus conventional vehicles: social costs and benefits in France
W. K. Talley	413	Determinants of the property damage costs of tanker accidents
		Notes and Comments
P. Sharma and **M. Khare**	427	Application of intervention analysis for assessing the effectiveness of CO pollution control legislation in India

Volume 1

W. W. Recker and A. Parsafar ... 1 Development of a vehicle activity-based travel model: formulation and evaluating the potential impacts of travel demand control measures on vehicle emissions

H. Jansen and C. Dendi ... 179 A welfare cost assessment of various policy measures to reduce pollutant emissions from passenger transport

R. E. Turner, P. Mandal, ... 191 The social valuation of changes in passenger transport: A preliminary analysis for the Netherlands

R. Tuuk and A. Ball ... 207 Electric versus conventional vehicles, social costs and benefits in Finland

W. E. Talley ... 217 Determinants of life-property damage costs of tanker accidents

Volume 2

P. Sforza and M. Rolan ... 427 Application of intervention analysis for assessing the effectiveness of 6D pollution control legislation in Italian urban areas

M. El-Fadel and E. Bou-Zeid ... 251 Transportation GHG emissions in developing countries: The case of Lebanon

M. Zamurs ... 265 Total requirements of energy and greenhouse gases for Australian transport

Volume 3

Md. Masud Karim ... 291 Traffic pollution inventories and modelling for metropolitan Dhaka, Bangladesh

D.A. Niemeier, K. Liu and Z. Qin ... 313 Using observed traffic volumes to improve transportation regional emissions estimations

J. Fenninger, N. Washington and R. Guensler ... 331 A statistical model for estimating grades of passenger automobiles from light duty motor vehicles

Notes and Comments

A. Rose and L. Schkade ... 373 Women, malorientation and the environment
